

Riot

Nordic Union

Just one more drink
Then I will go to bed
Don't wanna think

It's hard to sleep
Shadows coming close
I'm in too deep

Well, I ain't got it all together
Know I can do better
So damn hard to let it go

I can't deny
The scars are running deep
Building up inside

So tell me how do I turn down the riot in my head
Tell me how do I turn down the riot in my head
It's screaming every night
I'm tired of this fight
Silence is a gift I've been denied
How can I turn down
The riot in my head

Round and round
Going round in circles
In and out
(Going round in circles in and out)

Falling down
Looking for the answers
On the ground

Some days I'm walking on a tightrope
Hanging on my last note
Vertigo is kicking in

Who am I
Who is in the mirror
Who's that guy

So tell me how do I turn down the riot in my head
Tell me how do I turn down the riot in my head
It's screaming every night
I'm tired of this fight
Silence is a gift I've been denied
How can I turn down
The riot in my head
