

Shot In The Dark

Nordic Union

Many times we go on after all our hope is gone
Many times we resist. All the hurt, the pain, the risk

Standing on the edge and getting ready for the fall
Our heart's beating hard in our chest

When the skies getting dark
Who can mend our broken hearts

Oh, can we ever find a way

This is, it's a shot in the dark (Cry out)
Don't know if there's anybody there
A shot in the dark (Cry out)
Don't know if there's anyone who cares
A shot in the dark

When the leaves falling down and we stand on shaky ground
Will we keep our heads up?
Will we vanish in the dust?

Oh, can we tell what's right from wrong
The burning pain goes on
To find a place where we belong

This is, it's a shot in the dark (Cry out)
Don't know if there's anybody there
A shot in the dark
Don't know if there's anyone who cares
A shot in the dark

From our bleeding hearts
