

## The Other Side

Nordic Union

You got me running into overdrive  
I almost didn't make it out alive  
A bit too much of paradise

Down on my knees I was crawling back  
I won't survive another heart attack  
I got the morals of an alley cat

My hearts a ball of burning flames  
And I'm going down

On the other side  
I'll embrace the bitter cold  
On the other side  
It's a long and winding road  
Open fire, fire away  
It's the price I got to pay  
Run and hide on the other side

Pushing my heart until the break of dawn  
I stuck my nose where it don't belong  
Don't always need what you really want

Nocturnal creature with the devils eyes  
Unholy spirit sucking out your life  
But with a talent you can't deny

My life's a wreck of burning flames  
And I'm going down

I'm out of hope and I'm out of dreams  
Put out the fire with gasoline  
Never as easy as it seems
