

This Means War

Nordic Union

The hands of time
We walk into
What lies ahead
It's our moment of truth

Forever sealed
Our eyes can't see
Some many tried
It's our fall into greed

What's done is done
We can not turn back time

Cause this means war
There's no way we can escape
We run with the wolves
It's war
And we're gonna lay it all to waste
Cause this means war

So many words
But fewer deeds
Will push us down
On our hands and our knees

The razors edge
Will scream for blood
We hear all the cries
From the ones that we loved

What's done is done
We can not turn back time

Cause this means war
There's no way we can escape
We run with the wolves
It's war
And we're gonna lay it all to waste
