

# Wildfire

Nordic Union

Thrown in the fire  
So far away from home  
The wolves are crying out  
For you and me alone

They're all around us  
I can hear them closing in  
This never ending fear  
Is crawling deep under my skin

How can we fight it  
Their burning hate  
Nothing to lose  
We'll be the masters of our fate

We carry on for love  
Just let the wildfire burn  
We carry on for those that we lost  
So let the wildfire burn  
We gotta let it burn

Beyond what's human  
So hard to understand  
Don't wanna hear  
Bury their heads deep in the sand

How can this evil  
Get into the minds of men  
They're all becoming murderers  
This can not be the end

They took our freedom  
They took our pride  
But they can't stand against this ever rising tide

We carry on for love  
Just let the wildfire burn  
We carry on for those that we lost  
So let the wildfire burn

Was at our weakest point, our darkest day  
That horror screaming out our names  
Forever lost, forever lost  
How can one live, how can one fight  
Was falling down into the night so lost  
Oh, can we ever make it home  
We're doing it all for love  
Oh, let the wildfire burn

We carry on for love  
Just let the wildfire burn  
We carry on for those that we lost  
So let the wildfire burn  
Yeah, is it possible to make it back  
Or possible to love again  
How can we carry on
