

Full Circle in Under a Minute

Norma Jean

Engraved into the sky
Into the living and the dead
So take away and kill the root
Less is more but I need more more more
The sky cares not what will is mine
And everything else falls beneath

For one meaningless excuse, will you tell me
Why I'd be to blame, you tell me
For anything that happens after this?
For everything that happens after you?

This is how it's done
So this is how it's done
One foot in front
The hand relays the flame

Pass it off

The dead gaze is deafening
But time will tell if sound relays the lie

For one meaningless excuse, will you tell me
Why I'd be to blame, I'll tell you
Anything could happen after this
Everything could happen after you

I am the crack in the dam
I planned the breach in the gate
I'll consume the universe
Destroy the wolf and cry out for the lamb

This is how it's done
This is how it's done
This is how it's done

For one meaningless excuse, will you tell me
Why I'd be to blame, you tell me
Anything could happen after this
Everything could happen after you

For one meaningless excuse, will you tell me
Why I'd be to blame, will you tell me
