

## A Street That Rhymes At 6am

Norma Tanega

Fly a red balloon on someone else's time  
They will try to pull you down and change your mind  
Break loose and find a new skyline

Syncopate your life and move against the grain  
Don't you let them tell you that they're all the same  
Point forward to is not your name

It's 6am, I'm looking for a street that rhymes  
It's 6am, I'm looking for a street that rhymes  
All I want is a new skyline

Everyone is diggin' in a parallel line  
People always live and die in 4-4 time  
All I want is to take my time

It's 6am, I'm looking for a street that rhymes  
It's 6am, I'm looking for a street that rhymes  
All I want is a new skyline

Contemplate the road that put you underground  
(Contemplate the road that put you underground)  
Find your place in time - don't go to lost and found  
(Find your place in time - don't go to lost and found)  
Everybody's always pushing around

It's 6am, I'm looking for a street that rhymes
