

# Jubilation

Norma Tanega

Come free with me  
Come and love me  
Burst the shell with me  
Come be one two three  
With me, you and I, and us

Jubilation Jubilation  
It's the time to live!  
Come be one, two, three  
With me, you and I, and us

You're standing alone  
Empty drown in your shell  
No singing of bells  
Your cold prison soul hides your eyes from the sky  
You're drowned you can't fly

Come free with me  
Come and love me  
Burst the shell with me  
Come be one, two, three  
With me, you and I, and us

Jubilation Jubilation  
It's the time to live!  
Come be one, two, three  
With me, you and I, and us

I'm standing alone  
Empty drown in my shell  
No singing of bells  
My cold prison soul hides my eyes from the sky  
Alone I can't fly

Come free with me  
Come and love me  
Burst the shell with me  
Come be one two three  
With me you and I and us

Instead of the singular you and I  
Together we'll fly  
We'll be one, two, three  
We'll be born singing free  
You and I, and us

Jubilation Jubilation  
It's the time to live!  
Come be one, two, three  
With me, you and I, and us
