

# Babylon

## Normandie

Are you following or falling out?

I could be right, I could be wrong  
I couldn't care at all  
Saving my life, or wasting my time  
Won't make a difference  
We dig so deep we have gone through the bottom  
Fast asleep, we're awakening sodom

I know  
We keep on building up  
Building up, building up  
Enough isn't good enough  
Good enough, good enough  
The higher the climb, the harder the fall  
But something is better than nothing at all

Down we go the rabbit hole  
On to the other side  
Reach the sun, babylon  
Are you following or falling out?

Down we go the rabbit hole  
On to the other side  
Reach the sun, babylon  
Are you following or falling out?

Are you following or falling out?  
Are you following or falling out?

I could be right, I could be wrong  
I couldn't give a damn  
Saving my life, or wasting my time  
Won't make a difference  
We've gone so far we have passed the horizon  
Can't look back, we're beyond any reason

I know  
We keep on building up  
Building up, building up  
Enough isn't good enough  
Good enough, good enough  
The higher the climb, the harder the fall  
But something is better than nothing at all

Down we go the rabbit hole  
On to the other side  
Reach the sun, babylon  
Are you following or falling out?

Are you following or falling out?  
Are you following or falling out?

We got our eyes wide shut  
Tripping on imagination  
Reaching out  
To a bittersweet temptation

Losing touch when we're waking up again

We got our eyes wide shut  
Tripping on imagination  
Reaching out  
To a bittersweet temptation  
Losing touch when we're waking up again

Down we go the rabbit hole  
On to the other side  
Reach the sun, babylon  
Are you following or falling out?

Down we go the rabbit hole  
On to the other side  
Reach the sun, babylon  
Are you following or falling out?

Are you following or falling out?  
Are you following or falling out?
