

I'm coming down
Won't anybody give me something?
I need another needle now
Feels like my heart might soon explode

Yeah, I don't think I'm high enough
I think I'm falling for you now
And I let it take me over

I give my life to the sin, but I'm not a sinner
I follow the map on your skin, get lost in the mirror
I let another substance fix my heart
Waiting for the kicks to knock me out
I give my life to the sin, but I'm not a sinner
I've got a love like chemicals

Tongue tied, let our bodies talk
No sleep but I never wanna wake up
As clear as a lucid dream

Yeah, I think I'm falling for you now
And I let it take me over

I give my life to the sin, but I'm not a sinner
I follow the map on your skin, get lost in the mirror
I let another substance fix my heart
Waiting for the kicks to knock me out
I give my life to the sin, but I'm not a sinner
I've got a love like chemicals

I keep bidding, bidding, bidding my heart out
Bidding, bidding, bidding
I keep bidding, bidding, bidding my heart out
Over and over, over-
I keep bidding, bidding, bidding my heart out
Bidding, bidding, bidding
I keep bidding, bidding, bidding my heart out

I give my life to the sin, but I'm not a sinner
I follow the map on your skin, get lost in the mirror
I let another substance fix my heart
Waiting for the kicks to knock me out
I give my life to the sin, but I'm not a sinner
I've got a love like chemicals

Mhm, mhm, love like chemicals
Mhm, mhm, love like chemicals
