

## Jericho

## Normandie

I wanna burn it down, watch it fall apart  
Been looking for a cure for a callous heart  
I wanna burn it down, watch it fall apart  
And when I see the walls come crashing down I'll be satisfied  
Jericho, Jericho  
Jericho, Jericho

I roll the dice like the devil in disguise  
Burning bridges like they're cigarettes  
Walking the wire, always playing with the fire  
Ended Romeo and Juliet

Feel my feet leave the ground  
And I'm losing, I'm losing control  
It's buried deep, a state of mind  
But I won't coward out of this fight

I wanna burn it down, watch it fall apart  
Been looking for a cure for a callous heart  
I wanna burn it down, watch it fall apart  
And when I see the walls come crashing down I'll be satisfied  
Like Jericho, Jericho  
Like Jericho, Jericho

I took a bite from the apple of my eye  
But It couldn't feed the appetite  
I wanted space so I couldn't see your face  
Now we're drifting like a satellite

Feel my feet leave the ground  
And I'm losing, I'm losing control  
It's buried deep, a state of mind  
But I won't coward out of this fight

I wanna burn it down, watch it fall apart  
Been looking for a cure for a callous heart  
I wanna burn it down, watch it fall apart  
And when I see the walls come crashing down I'll be satisfied  
Like Jericho, Jericho  
Like Jericho, Jericho

Brick by brick by brick by brick  
The wall's coming down, the wall's coming down  
Brick by brick by brick by brick  
The wall's coming down, the wall's coming down  
Brick by brick by brick by brick  
The wall's coming down, the wall's coming down  
Brick by brick by brick by brick  
The wall's coming down, the wall's coming down

I wanna burn it down, watch it fall apart  
Been looking for a cure for a callous heart  
I wanna burn it down, watch it fall apart  
And when I see the walls come crashing down  
I wanna burn it down, watch it fall apart  
Been looking for a cure for a callous heart  
I wanna burn it down, watch it fall apart

And when I see the walls come crashing down I'll be satisfied  
Like Jericho, Jericho  
Like Jericho, Jericho
