

Moth

Normandie

It's on you now
So unbelievable, why can't you give it all tonight?
You better hold it down
It's irretrievable, leave my heart at the door, before I go out
I thought it would be you, but now I'm starting to doubt
I thought it would be you, but I am better without
Oh, God, it's unbelievable, I can see through it all
I can see you and I will never work out

Now you wanna pull me down, like a moth into flame
I'll be safe and sound when I'm out of the game
Gonna get back up again, uh (ooh)
Gonna get back up again
I don't wanna go around, looking for sympathy
Getting off the ground, keeping my dignity
Gonna get back up again, uh (ooh)
Gonna get back up again

It's over now
So unbelievable, why can't you give it all tonight?
You better hold it down
It's irretrievable, leave my heart at the door, before I go out
I thought it would be you, but now I'm starting to doubt
I thought it would be you, but I am better without
Oh, God, it's unbelievable, I can see through it all
I can see through it all

Now you wanna pull me down, like a moth into flame
I'll be safe and sound when I'm out of the game
Gonna get back up again, uh (ooh)
Gonna get back up again
I don't wanna go around, looking for sympathy
Getting off the ground, keeping my dignity
Gonna get back up again, uh (ooh)
Gonna get back up again

It's on you now
So unbelievable, why can't you give it all tonight?
