

# Overdrive

Normandie

(Wooh)  
I don't think they're ready  
I'm about to let it out  
(Wooh)  
I won't be automatic  
I'm going into overdrive

Heartless  
Got my name on your lips  
It ain't a sin if it's feeling right  
Call it rumours  
Champagne for the losers  
There is no smoke without a wildfire

Feels like I'm on the edge of something taking over me  
Making me come alive  
Feeling electricity inside of me go into overdrive

(Wooh)  
I don't think they're ready  
I'm about to let it out  
(Wooh)  
I won't be automatic  
I'm going into overdrive  
I'm on the edge of something taking over me  
Making me come alive  
(Wooh)  
I won't be automatic  
I'm going into overdrive

Karma  
It's a little worn out  
Yeah in the end we all pay the price  
Call it purpose  
Thank u for your service  
Now won't you take a step back, get in line

Philip, what's the matter?  
Can't you take the pressure?  
I've got a voice in my head  
Saying I can sleep when I'm dead  
Philip, what's the issue?  
Running out of tissues?  
If I keep moving I don't need therapy

(Wooh)  
I don't think they're ready  
I'm about to let it out  
(Wooh)  
I won't be automatic  
I'm going into overdrive  
I'm on the edge of something taking over me  
Making me come alive  
(Wooh)  
I won't be automatic  
I'm going into overdrive

I'm going into overdrive
