

Summer

Normandie

This is the summer that I need you the most
Please don't leave town, 'cause I need you to figure me out
There are some parts of me that I've not shown
So, please, don't leave town, give me the benefit of the doubt

A part of me will always see that you and me were meant to be
A part will always see our history
A part of me will always see that you and me were meant to be
A part will always see our history
