Normani

Turn me up, uh
Turn me up

Phone ringin', it's you, I'm on that time
You on it too, what's on your mind? I'm on it too (Ooh-ooh, ooh-ooh-ooh)
Call me, I come through, I fantasize
You want it two times on our side, clocks in the rooms (Ooh-ooh, ooh-ooh-ooh)

Back on that vibe again
It's hard to fight again
Shit, we can't hide again (Ooh-ooh, ooh-ooh)

When I get you alone
Boy, what you gon' do with it?
Don't talk too much, just do this shit
Boy, what you gon' do with it?
When I get you alone
Boy, what you gon' do with it?
Don't talk too much, just do this shit
Boy, what you gon' do?
What you gon' do with it?

I can tell you off top, girl, you gon' like the things I do (Do)
Sexy, camera shy, couldn't leave, she melt when it's hot in the room (Room)
Fuckin', we made love to tunes, fuckin' shrooms
Lock you to the bed, don't let you move
Baby, help me heal the pain (Heal the pain)
This don't feel like lust and I feel love in my veins (Veins)
Who this for? Tell me, babe (Tell me, babe, who this for?)
We made love on just the chemistry, keep me sane

Back on that vibe again (Back on that vibe again)
It's hard to find again (It's hard to find again)
Shit, we can't hide again (Shit, we can't hide again, ooh-ooh, ooh-ooh)

When I get you alone (When I, when I)
Boy, what you gon' do with it?
Don't talk too much, just do this shit
Boy, what you gon' do (What you gon' do with it?)
What you gon' do with it?

Text me where you at, let me know you back, gets me every time
Know I love to do things my way, baby, and you let me every time
Spent a long time tryna get away, baby, but you catch me every time
When you text me where you at, letting me know you back, gets me every time

When I get you alone (Alone)
Boy, what you gon' do with it? (Oh, what you gonna do with it?)
Don't talk too much, just do this shit
Boy, what you gon' do with it? (What you gon' do with it?)
When I get you alone (Yeah)
Boy, what you gon' do with it?
Don't talk too much, just do this shit
Boy, what you gon' do? (Whatever you wanna do)
What you gon' do with it?

Yeah

It's here for you to do what you wanna do

Mmm-mm
