

Distance

Normani

You said you're never gonna make me cry, want me to be myself
Never gonna lose again, you're the reason why
I'm never gonna be your first, you're gonna change my ending
Never gonna make mess, we always gonna make a mess, time out

This time, this time
Time to hear my side, I'll give you all mine, so time out
It's mine now
Ooh I
Cause I fell in love with potential
Cause you made your heart unavailable (hey yeah)

I need to love you from a distance
Tired of fighting for attention
How much do you really listen?
When I need you you're always missing
I need to love you from a distance
I'm not asking for permission
I tried about everything
You can't put it all on me
From a distance

You said you were gonna be my peace
And if I'm 'a ride for you, you was gonna ride for me
Now all we do is disagree
Don't know where we went wrong
This ain't it for me

No, no
This time, this time
You gonna hear my side, I'll give you all my time
It's mine, you know
I fell in love with potential
Cause you made your heart unavailable
A thousand times, that's why

I need to love you from a distance
Tired of fighting for attention
How much do you really listen?
When I need you you're always missing

I need to love you from a distance
I'm not asking for permission
I tried about everything
You can't put it all on me
From a distance
