

Lights On

Normani

Don't even address me unless you gon undress me
Tryna see what that mouth do cause that money don't impress me
If you're about to make moves, better make it look sexy
I just got one house rule, let me put in my request, please
Tonight I want you to -

Love me with the lights on
You're fuckin' with a star with a mean face card
Let me show you it's yours
Love me with the lights on
You're fuckin' with a star, give me rounds of applause
You know I can perform

Make you come fast like a '98 sports car
Blink twice, it's already gon' be over
When I ride you, something like a jet ski
Might finish just by looking at me, yeah
You know everything that I do, I'ma make it look sexy
And I know it's not fair to make you stare
But tonight I want you to -

Love me with the lights on
You're fuckin' with a star with a mean face card
Let me show you it's yours
Would you love me with the lights on?
You're fuckin' with a star, give me rounds of applause
You know I can perform

There's something to be said about
When things feel as good as they look
Or look as good as they feel
So, you should see this... lights

Love me with the lights on
You're fuckin' with a star with a mean face card
Let me show you it's yours
Would you love me with the lights on?
You're fuckin' with a star, give me rounds of applause
You know I can perform
