

Take My Time

Normani

You got your ways and I just can't explain
How my emotions start racing
Every time that you are close to me, yeah
I get this feeling I keep chasing
Now that we're almost there, stop thinking
Wonder what's keeping you from not seeing
You got me considering to spell it out
For you, yeah

'Cause I want you to (take my time)
Take my time (take my time)
Oh, baby (just don't take forever)
'Cause I want you to (take my time)
All my time (take my time)
Oh, baby (just don't take forever)

Wasn't prepared for you to tie me up
Although your ways have got me feeling right
None of it matters if you don't come in, hey
See what I've been hiding just for you and I
Now that we're almost there, stop thinking
Wonder what's keeping you from not seeing
You got me considering to spell it out
For you, hey

'Cause I want you to (take my time)
Take my time (take my time)
Oh baby (just don't take forever)
Yes, I want you to (take my time)
All my time (take my time)
Oh baby (just don't take forever)

'Cause I want you to (take my time)
Take my time (take my time)
Oh baby (just don't take forever)
Yes, I want you to (take my time)
All my time (take my time)
Ooh, baby (just don't take forever)
Ay, yeah

I want you to take my time, want you to take it all
Want you to have it baby, baby
I want you to take my time, want you to take it all
Want you to have it baby, baby

'Cause I want you to (take my time)
Take my time (take my time)
Oh, baby (just don't take forever)
Yes, I want you to (take my time)
All my time (take my time)
Oh, baby (just don't take forever)
Ay, yeah

Take my time, yeah
But just don't take forever, yeah yeah
But just don't take forever
