North Mississippi Allstars

First time I met you  
You blew me away  
And even though you're gone  
You're going to stay  
Hey, your memory lingers on  
Why you had to do me so wrong?

Talk about wrecking  
A perfectly happy home  
You got some kind of nerve, girl  
To come on that strong  
You know damn well  
Oh, I never never asked you to come along

Yeah, you pushed me  
And you pulled me  
And you tore my heart apart  
Yeah, you shook me  
And you took me  
And you left me all alone in the dark

Oh, Katrina  
What have you done?  
Oh, my sweet Crescent City  
It's almost gone  
Since you came along  
Babe, I just can't go home

Yeah, you pushed me  
And you pulled me  
Oh and you tore my heart apart  
Yeah, you shook me  
And you took me  
And you left me all alone in the dark

Oh, Katrina  
What have you done?  
Everything I love is almost gone  
Since you came along  
Babe, I just can't go home
