

# What A Day

## North Point Worship

When I cross the finish line  
And I look into Your eyes  
You won't be hard to recognize  
You've been with me my whole life

What a day, what a day  
What a glorious day  
It will be  
What a day, what a day  
What a glorious day  
It will be  
When the race I've run is finished  
I'll see the face of my Beloved  
And what a day, what a day  
What a glorious day  
It will be

My expectations are too low  
For what I one day will behold  
Face to face with perfect love  
With You Lord

What a day, what a day  
What a glorious day  
It will be  
What a day, what a day  
What a glorious day  
It will be  
When the race I've run is finished  
I'll see the face of my Beloved  
And what a day, what a day  
What a glorious day  
It will be  
What a day, what a day  
What a glorious day  
It will be

There's no more sickness, no more pain  
There's endless joy on every face  
There's no more sadness, only thanks  
One day we'll see  
We'll hug the ones who've gone before  
And hand in hand we'll praise the Lord  
No sorrow behind Heaven's doors  
One day we'll see  
We'll dance upon the streets of gold  
We'll sing all day, it won't get old  
Saints and family round the throne  
One day we'll see

What a day, what a day  
What a glorious day  
It will be  
What a day, what a day  
What a glorious day  
It will be  
When the race I've run is finished

I'll see the face of my Beloved  
And what a day, what a day  
What a glorious day  
It will be  
What a day, what a day  
What a glorious day  
It will be
