

Bill Gates will save the world for us.
Bill Gates will save the world for us.
We should lay back and smoke some grass.

Look - the world, so beautiful
All the gifts available.
Let's take it all until it's gone
There's no harm if we go on.

Bill Gates will save the world for us.
Bill Gates will save the world for us.

We are not responsible
For killing the last animal.
Or witnessing the willful waste
On our package holidays.

Bill Gates will save the world for us.
Bill Gates will save the world for us.

I don't know what's wrong - you want me to name it.
The system we live in? I told you I blame it.
It's all going down - is that what you say?
I guess you haven't heard the news today.

Bill Gates will save the world for us.

Look - the world, so beautiful
All the gifts available.
Let's take it all until it's gone
There's no harm if we go on.

Bill Gates will save the world for us.
We should lay back and smoke some grass.

Gimme sex, gimme drugs, gimme rock'n roll
A beautiful body and a deathless soul.
Heading for a fall? Can't hear it anymore.
I got no idea why you care at all.

Bill Gates will save the world for us.
