

Enough

Northern Lite

It was too good to be true - I was blind
I'm the one who's out again
One more time

If you'd knock here at my door again
I just had no choice I'd let you in

I can't get enough (4x)

Well I am the biggest fool in your eyes
Still I suffer from it all
I can't disguise

I can't get enough (4x)
