Leave

Northern Lite

No more time
For hesitation
No more turning
Back in fear
Looking for
Just something to believe in
And I came to realize
I won't find that here

I'm gonna leave leave leave
This place forever
And save myself
For something else
I'm gonna leave leave leave
This place forever
'Cause everywhere
Everywhere else is better

Everywhere else is better

No more waiting
For the right time
And no more waiting
For advice
And all this time
Will be forgotten

And hell yeah
I'm ready to pay my price
I'm gonna leave leave leave
This place forever
And save myself
For something else
I'm gonna leave leave leave
This place forever
'Cause everywhere
Everywhere else is better

I'm gonna leave leave leave
This place forever
And save myself
For something else
I'm gonna leave leave leave
This place forever
'Cause everywhere
Everywhere else is better

Everywhere else is better
