

# Leave

Northern Lite

No more time  
For hesitation  
No more turning  
Back in fear  
Looking for  
Just something to believe in  
And I came to realize  
I won't find that here

I'm gonna leave leave leave  
This place forever  
And save myself  
For something else  
I'm gonna leave leave leave  
This place forever  
'Cause everywhere  
Everywhere else is better

Everywhere else is better

No more waiting  
For the right time  
And no more waiting  
For advice  
And all this time  
Will be forgotten

And hell yeah  
I'm ready to pay my price  
I'm gonna leave leave leave  
This place forever  
And save myself  
For something else  
I'm gonna leave leave leave  
This place forever  
'Cause everywhere  
Everywhere else is better

I'm gonna leave leave leave  
This place forever  
And save myself  
For something else  
I'm gonna leave leave leave  
This place forever  
'Cause everywhere  
Everywhere else is better

Everywhere else is better
