One Two Three

Northern Lite

One two three
I leave my pain just where it fits
I got this memory, we were kids
Thought about it for a long time
Now all the boys and all the girls
And all the pleasure in the world
Can't give it back to me
Oh, too late

One two three
Remember dancing round the apple tree
That's where I really want to be
One two three
The world is different for you and me
We were so wild and free
Please take me back
I leave my pain just where it fits

I got this memory, we were kids
Thought about it for a long time
For a long time
Now all the boys and all the girls
And all the pleasure in this world
Won't give it back to me
Back to me
Please take me back

One two three
Remember dancing round the apple tree
That's where I really want to be
One two three
The world is different for you and me
We were so wild and free
Please take me back
