

Run

Northern Lite

There's another me who turned to be a freak
bald faced, punk ass - and he knows when I'm weak
hell he knows when I'm weak
I can fell him coming to take over again
pointing at you - and calling my name
calling my name

Now you better run to hunt down a sheep
is easy to do
no he'll never rest and he'll never sleep
until I own you

There's another me kinda making me afraid
he would hurt you - and he's not gonna wait
try to make him wait
pushing all the buttons forbidden to use
freaked and confused - he's trying to come loose
to shake of the blues

Now you better run to hunt down a sheep
is easy to do
no he'll never rest and he'll never sleep
until I own you

No don't give him the the come on and never smile at him
just turn away and go and you might save your skin
well maybe you are strong
yes maybe you are strong
but he will not give in

Now you better run to hunt down a sheep
is easy to do
no he'll never rest and he'll never sleep
until I own you
