

Super Black

Northern Lite

Something has gone away
And we won't get it back - no
Now tell me should I stay
Dressed in super black

I can pretend
To be just someone that I'm not
That you're the only one I've got
That I can always understand
That I don't see the lies at hand
If you don't wanna know
I ain't gonna show
I can go on and pretend
Right on till the end

Don't you wanna hear the words
That I would have to say
Too many I love you's
Answered right away

I can pretend
To be just someone that I'm not
That you're the only one I've got
That I can always understand
That I don't see the lies at hand
If you don't wanna know
I ain't gonna show
I can go on and pretend
Right on till the end
