

Which Way

Northern Lite

Mom told me that life's a strange thing
Be careful what you do
There will always be a consequence
That comes back to you
Daddy told me always follow your heart
Don't be afraid too
You only have one season here
Made just for you

Life is meant for living
Why should I care
Try every day
No time to waste
Dreams are answers to the
Questions we don't ask
Who can ever know
Which way to go
