

Save us

If you thought you knew it all  
Don't shift your view, you might slip and fall  
A long way down and down this rabbit hole  
If the tunnel runs any deeper you might come out the other side of the world  
Maybe upside down you'll be able to see  
This isn't what it seems  
We are far from free

We're caught in the undertow  
Deeper and deeper  
Into the unknown  
We're caught in the undertow  
Follow the leader  
Down with the undertow

Action floats in limbo Like driftwood in the sea  
Under CCTV, so dig down deep  
The more you uncover, the more you disbelieve  
The more you will discover  
We are far from free

Heroes exposing  
Corruption in who we obey  
Blow the whistle from a burning stake

The whistle blows from a burning stake  
Corruption won't keep revolution at bay

We're caught in the undertow  
Deeper and deeper  
Into the unknown  
We're caught in the undertow  
Follow the leader  
Down with the undertow

Spied on, lifelong, collection 24/7  
Archives of all we've done  
Satellites track our lives beyond the skies  
Not even your mind can hide  
From big brother's eyes

It's time to take back our home  
Thank you Mr. Snow
