

Echo Chamber

Northlane

Have you tried turning it off
Taking a break?
When nobody is watching do you make the same mistakes?
Is it loud in there?
It echos on and on
White noise poisons all your choices
Haunting you in different voices

Praying I go deaf in this echo chamber
Praying I go deaf in this echo chamber
Something's gotta give sooner or later
Praying I go deaf in this echo chamber

Have you tried turning it off
Looking away?
The free mind of a stranger sears the tether to your brain

It cuts you deep
You feel ashamed
The only thing that matters
Is what you can create

Praying I go deaf in this echo chamber
Praying I go deaf in this echo chamber
Something's gotta give sooner or later
Praying I go deaf in this echo chamber
Echo chamber

Praying I go deaf in this echo chamber
Praying I go deaf in this echo chamber
Something's gotta give sooner or later
Praying I go deaf in this echo chamber

The free mind of a stranger sears
The tether to your brain
The only thing that matters
Is what you can create
