

## Quantum Flux [Live At The Roundhouse]

Northlane

Set me free

Feeling all the love I swear that it's in the air  
Leaving me; floating forever into infinity  
I can see the colours dance when I close my eyes  
Witnessing mysterious design  
I can feel my body rush  
From the love inside of me

Can't you see the joy of life is right before your eyes?  
Infinite bliss, infinite love  
Take a chance, close your eyes and just dream  
It sets me free

We walk around blinded like children in the dark  
So cold and so empty  
How did this even start?  
Its time to remember  
What it's like to feel alive

Set me free  
Can't you see the joy of life is right before your eyes?  
Infinite bliss, infinite love  
It sets me free

Take a chance, close your eyes and just dream  
Feeling all the love I swear that it's in the air  
Leaving me, floating forever, into infinity  
Quantum fluctuations project into the air  
Leaving me floating forever into infinity  
Infinite potential
