## **Sleepless**

I can't reach your hand I can't liberate you I know you're alive But in my heart I've said goodbye So tonight I'm sleepless

Afraid of what I might become A curse I've tried to ignore But still it leaves feeling numb I wish I could have done more

It's taken over every cell Why are you drowning yourself When you are so unwell?

I can't reach your hand I can't liberate you I know you're alive But in my heart I've said goodbye So tonight I'm sleepless

I keep this out of sight Out of mind But I never left it all behind

I never left it all behind

I can't reach your hand I can't liberate you I know you're alive But in my heart I've said goodbye So tonight I'm sleepless

I'm sleepless
