

# Black Hole

Nosferatu

It's an Ice Age  
In the Dark Age  
In the doldrums  
And the back rooms  
But we'll be there soon  
(we will love you)  
'Cos In a Black Hole  
Just for yourself  
Just for your soul  
I'd do anything  
All of the time  
And the waiting for nothing  
The fear and dread that I wasted on nobody  
This was the End Of You  
And this is the  
End Of You  
'Cos it's an Ice Age  
In the Dark Age  
I hope it comes soon  
(we will love you)  
'Cos In a Black Hole  
Just for yourself  
Just for your soul  
I'd do anything  
(we will love you from up above you)  
'Cos there's nobody nothing nowhere forever  
No temple of holy azurian treasure  
Just like a bird in the grip of disease  
Gravity wins and she falls to her knees  
And all of the targets  
The clawing insistence  
Erasing your memory out of existence  
This was the End Of You  
And this is the End Of You  
'Cos it's an  
Ice Age  
In the Dark Age  
But you'll be there soon  
(we will love you)  
'Cos In a Black Hole  
Just for yourself  
Just for your soul  
I'd do anything  
(we will love you from up above you)  
Because there's nobody nothing no one forever  
Eternity sucks and devours at its leisure  
A momentary magical look in her eye  
Appeared as she conjured her way to the sky  
(but you'll be there soon)  
(We will love you from up above you  
We will take you home)
