

Have It Your Way

Nosferatu

All of you wannabees, has beens and those who never were
Shut up and listen to what I got to say

However you want it
You can have it your way
You fuck my night up
I'ma fuck up your day

Bullet with your name
Sending it your way
That goes for anyone
Anyone? Anyone!

However you want it
You can have it your way
You fuck my night up
I'ma fuck up your day

Bullet with your name
Sending it your way
That goes for anyone
Who walks through that doorway
