

Intimidation

Nosferatu

I'll bang this [many x] Strapped to the back of the beat I'll bang this [many x] Fuck this I'll bang this [many x]

I don't give a fuck cause, I be the hardest Loud like a megaphone Eardrum feeling me?

Hit you with a sledge hammer Go turn the party up

When [...] going at it, you can bet on my women But these record label people got me waiting for scrimmage Reclaim the game, take it back to the ground I gotta put it down for the test of time

The spit-wax and snare drums

I'm a breath of fresh air when I kick in the door With [...] enforced, no mission abort

I'll bang this [many x] Fuck this I'll bang this [many x]

[...] made music Hard work and no rest..

Yo, let me back up [...] Let me back up, yo-yo Take the quality time to put it down A surround sound, ground show callin' your town Keep rockin' 'till they put us in a hole in the ground And the world comes tumbling down..

We do it so passionately Flows hit the tracks with pinpoint accuracy

[...] 'till the last bit of our breath

Get ready, motherfucker

There's a party going on inside No man is safe from..

A surround sound, ground show callin' your town I'll bang this [many x]
