

## Knock Out

Nosferatu

If I got to repeat it, forget it  
Either beat it or [...] it  
I'll play you off like a cassette deck  
Reset!  
[x?, chopped up]

Listen to me  
What are we talking about, really?  
We're talking about a journey, man  
A subconscious safari  
A mental expedition  
Okay, a mind trek

This planet has been raped, pillaged and fucked  
And the mind is the only uncharted territory  
And this shit is the ship

It's the Nina, the Pinta and the Santa Maria  
And you.. are fuckin' Magellan  
So what do you say my motherfucking friend?  
Do you want to take a trip or do you want to sit on your ass?

I can talk to people any fucking way I wanna talk to them  
So let me do my job and you do yours

You got knocked the fuck out, biatch
