

## Time of Legends

Nosferatu

I know a way to eternity  
So follow if you will, follow me  
Through the window to the time of legends  
All you have to do is just believe that

Dragons fly as winter falls  
Giants crush their way through storms  
To sleep at night in warm places  
And find fortune in the sleeve of aces  
Giants fly as ogres scream  
It's oh so hard to believe that Demons live  
They're made of flesh  
So pray it goes on and on forever

I'll bring you in if you trust me  
Through the castle gates, beyond the trees  
Along the path to the dungeon cellar  
All you have to do is just believe that

Dragons fly as winter falls  
Giants crush their way through storms  
To sleep at night in warm places  
And find fortune in the sleeve of aces  
Giants fly as ogres scream  
It's oh so hard to believe that Demons live  
They're made of flesh  
So pray it goes on and on forever

You never told why you could never Fly in the land of zero grav  
ity  
When all you do is follow me  
The darkness won't bite you  
It shouldn't frighten you  
It should take you through  
It should take you through  
Though the portal to the make-  
believe of your imagination (2X) Chorus
