

# Devil Left Me On Read

## Not Enough Space

I prayed and planned for the ending of your days  
You're just a deadly poison, acid flowing through my veins  
Sliced open your flesh, what it would be like to live in your skin  
(Your skin) gnawing on your bones and tearing until there's nothing left

The devil left me on read  
When I tried to confess  
Can't escape these sick sick thoughts

Laying in a bed of filth with me  
If I purge my body for you maybe you'll feel all my pain  
Swallow all these razors just to feel again  
Intestines inside out and on display

The devil left me on read  
When I tried to confess  
Can't escape these sick sick thoughts

The devil left me on read  
When I tried to confess  
Can't escape these sick sick thoughts

Eugh!

Stepping over me out of greed, stuck in vanity  
No bit of modesty, I killed your pride and ate it for dinner

The devil left me on read  
When I tried to confess  
Can't escape these sick sick thoughts

The devil left me on read  
When I tried to confess  
Can't escape these sick sick thoughts

Hell won't let me in

(Breeeeeeeeeeeeee)

The devil left me on read  
When I tried to confess  
Can't escape these sick sick thoughts

The devil left me on read  
When I tried to confess  
Can't escape these sick sick thoughts
