

## Don't Be Scared

### Not Enough Space

Please don't be scared  
I know what you've become  
Sometimes the past can't be undone  
Undone!

I'd watch you bleed and I wouldn't feel a thing  
You're so fucking dead to me  
You should see the look on your face  
These scars, they don't fade  
I feel the appeal of toxicity  
Fuck me, right? It's always me, right?  
I'll remember every word that you said to me  
You're not the person you swore that you'd be

I knew the end was near  
So why am I still here?

Please don't be scared  
I know what you've become  
Sometimes the past can't be undone  
So let your tears dry  
I hope I won't see you in another life

You're bleeding out now, I still don't feel a thing  
I was right when I said you were dead to me  
I can see the way you've changed  
These scars, they don't fade  
Maybe it's the appeal of toxicity  
Fuck me, right? It's always me, right?

I knew the end was near  
So why the fuck am I still here?  
I knew the end was near  
So why the fuck am I still here?

Baby, it's okay, don't be scared  
The blood's running dry  
Soon you won't see the light  
The light!

Please don't be scared  
I know what you've become  
Sometimes the past can't be undone  
So let your tears dry  
I hope I won't see you in another life

I will see you in fucking hell, you fucking asshole

I'll fucking slash your throat  
You're such a fucking disaster  
I wanna make you choke  
On your own words, you fucking bastard

Don't be scared  
Fuck!
