

# Don't Let Go

Not Enough Space

Don't let go!  
(Don't! Let! Go!)

The world, can wait  
I trust, embraced  
The length, I'll go  
To keep you here with me, so

Don't let love slip away  
Promise me, promise me  
Promise it's not too late, for us

Just fall with me  
We'll relive the highs and lows  
Count back from three  
Take my hand and don't let go  
Don't let go!

Take the leap of faith  
A quiet escape  
And we'll leave the world  
With no steps left to trace

So don't let love slip away  
Promise me, promise me  
Promise it's not too late, for us

Just fall with me  
We'll relive the highs and lows  
Count back from three  
Take my hand and don't let go  
Let's run away  
Swear to god I'll keep you safe  
Hold onto me  
Cause I'll never let, no I'll never let you go

Don't let go, don't let go!  
Promise me  
Blegh!  
Don't let go!

Just fall with me  
We'll relive the highs and lows  
Count back from three  
Take my hand and don't let go  
Let's run away  
Swear to god I'll keep you safe  
Hold onto me  
Cause I'll never let, no I'll never let you go
