

100 Degrees

Not3s

Flow's hotter than 100 degrees
They must be freezing, yeah
I can't tell a lie pon track, why's that?
Cause I'm a realist yeah, yeah
They don't graft, they're just lyin' there
Acting like they saw you, they're just hidin' their fairs
Kermit the frog, I don't mind that though
Sip yak and blow while I'm smiling, yeah

If I lost my notes or stopped making notes
Would they still care for me?
If Plan A didn't work and there's no Plan B
Would they be there for me?
If the sun went away and there's rainy days
Would they be prepared for me?
My brothers be 'ere for me?

Hotter than 100 degrees
Hotter than 100 degrees
Show 'em how I rock on the beat
Anybody rockin' with me
Said I'm, hotter than 100 degrees
Hotter than 100 degrees
Show 'em how I rock on the beat
Anybody rockin' with me
Said I'm, hotter than 100 degrees

Married to the money with no ring pon my finger
But there's definitely rubber bands on my hand
Everybody laughed when I sing up in assemblies
Remember me and now they're all screaming you're the man
Money up against the wall for my P's
Now I'm moonwalking every time I'm in the bank
Dentist needed, teeth need cleaning
That's what I be thinking every time I lick a plaque
My pockets stay doubled up
My wallet, my pockets stay doubled up
Mummy's pockets be doubled up
All of the bros, we just doubled up
Skipping problems like double dutch
Thank God that nobody's stopping us
Booming, we popular
Business be booming, we popular

Hotter than 100 degrees
Hotter than 100 degrees
Show 'em how I rock on the beat
Anybody rockin' with me
Said I'm, hotter than 100 degrees
Hotter than 100 degrees
Show 'em how I rock on the beat
Anybody rockin' with me
Said I'm, hotter than 100 degrees

Why, why, why, why
Can't they just try
To realise

That I'm flaming
Up in the sky
New day, new flight
New nickname: firefly
Cause I'm...

Hotter than 100 degrees
Hotter than 100 degrees
Show 'em how I rock on the beat
Anybody rockin' with me
Said I'm, hotter than 100 degrees
Hotter than 100 degrees
Show 'em how I rock on the beat
Anybody rockin' with me
Said I'm, hotter than 100 degrees
