99 + 1

Why can't they keep it 99+1?
Why can't I walk in the club with a gun?
Why does she suck faster when I grab her buns?
And why does she love it when I smack her?
Why can't they keep it 99+1?
Why can't I walk in the club with a gun?
Why does she suck faster when I grab her buns
And why does she love it when I slap her?

We rolling up, straight shut downs when we showing up
Check the Fahrenheit you ain't cold enough
Check your mileage you ain't road enough, you ain't road enough
So we rolling up, straight shut downs when we showing up
Check the Fahrenheit you ain't cold enough
Check your mileage you ain't road enough

Yo, what's with all the abuse, I got an awesome excuse
I only fucked your twin cos I thought it was you
Didn't know it weren't you yeah
She only with me for the fame but who cares?
We roll up, everybody roll eyes
Everybody wanna know who's inside
3 countries, 2 weeks, no dates
They wanna roll but there's only 2 seats, yeah

Banglez tryna change up the beat but I told him bro, man this beat will do
My bros wear gloves when they handling snow even when they handle heat that's two
Jumped in the scene and a ghost ting jumped on the scene like peekaboo
Stormzy already with the storms but I bring down lightning like Pikachu

That's if you touch my bro
Bare love when I touch highroad
And she's in love I know
Investigating like a fed or 5-0
But she only found messages from 150
Step through, I came for the pum pum
Your car sounding like chakk and our ting come like vroom-vroom
Rev dat, try race us bro forget that

Pull up in your space in a spaceship
Scratching your head like how you gonna race this

Now they push to start they don't just use keys no more
No nigga that's basic

Now we pull up, dash and you skrr
I'll pull up, dash on your bird and take her

And they say it's love but I learnt
They hate to see what you earned, they're faker

Why can't they keep it 99+1?
Why can't I walk in the club with a gun?
Why does she suck faster when I grab her buns?
And why does she love it when I smack her bum?
