

Middle Of The Night

Not3s

In the middle of the night
When the timing's right, hit me on my line
Here to reply, for you I'll slide, no wasting time
Whenever it ain't working and you need a better person
I ain't hard to find
Make sure you're fine, way too divine
Done without trying, yeah

I wanna give, something you ain't ever felt
Before this, 'fore this
Can't get nowhere else, type of heat to make you melt
'Cause we ice-cold frozen
Pick heads or tails, random cities round the world
We touring, touring
Bad as hell, can tell you done it by yourself
How you talk and you're walking

It's perfect, the wait it was worth it
The curves on your frame, babe I'm learning
Seen you've been working, guys have been lurking
Big bag like the ones for her purses
Dessert, but I'm never deserting
Holy water but not where the church is
Told her her Insta don't do her justice
Seen them pictures, you're better in person

In the middle of the night
When the timing's right, hit me on my line
Here to reply, for you I'll slide, no wasting time
Whenever it ain't working and you need a better person
I ain't hard to find
Make sure you're fine, way too divine
Done without trying, yeah

One time for a girl like you
Shout out one time for a girl like
Ain't never been real like you
No lie, it ain't never been real like her
Swear that you're my type
The way you wind make me feel alive
Hop on top, ride on a real bike
Confidence, slide on the steel pipe, ah

It's perfect the wait it was worth it
The curves on your frame, babe, I'm learning
Seen you've been working, guys have been lurking
Big bag like the ones for her purses
Dessert, but I'm never deserting
Holy water but not where the church is
Told her her Insta don't do her justice
Seen them pictures, you're better in person
