

On It

Not3s

Your tryna live 3 always
I'm tryna see Not3s all ways
In the dark you a freak on demon time
No Candles lit but your pure flames
On my grind but she wants D
All day
Shift of attitude if the Ps was small change
I'm on it way too much to quit
You ain't got me whip but I'm on it
Like Car bonnets
Exhausting the way the piping is
Some pipe piper shit
They all want it
No talking
Not talkative
But she use her mouth much more often
Hottest stuff since
Scotch bonnets
Sizzling when her drip touch skin
Girl come get Your belongings
Right next to my pockets

I'm on it
I'm on it
Girl push back up on it
Your girl can get it too if she want it, you know that
I'm on it
Mmm mmm cotch and bend over, fling a likkle leg pon the shoulder
You know that I'm on it
Fashion Nova jeans on your waist
I need it like the keys to the wraith, you know
I'm on it
Me and you gon' double up mmm mmm
Til' the sun comes up
