

# Party Up

Not3s

(Yeah, it's 3, yeah, it's 3, yeah, it's 3)  
(Adey turn up the volume)

They wouldn't know me if it weren't Not3s  
But it's blessed 'cause I smoke keys  
Another one came with their stories  
Another one came with their worries  
Remember days I was so weak  
And I couldn't hear from them for the whole week  
Another one came with their stories  
Another one came with their worries

Party up  
Party up, up  
Party up, yeah  
Party up  
See the mood change when they see you run it up  
Watch 'em act strange when they see your money up  
Party up  
Party up, up  
Party up, yeah  
Party up  
See the mood change when they see you run it up  
Watch 'em act strange when they see your money go up

Party up  
With bad gyals that like to party  
Freak tings are moving naughty  
Come like her name be Cardi, wulahi  
Wulahi, I'm sticking right with my chargie  
And the stick might be with my dargie  
Sweetest ting give punani, dey horny  
No worries

They wouldn't know me if it weren't Not3s  
But it's blessed 'cause I smoke keys  
Another one came with their stories  
Another one came with their worries  
Remember days I was so weak  
And I couldn't hear from them for the whole week  
Another one came with their stories  
Another one came with their worries

Uh, big black babe want some time in the dark  
You're tuna, I'm a big kind of shark  
Can't put this ocean with a pond  
Chain is swinging when I be in the dance  
Diamonds bling like they're all in a dance  
Magic flex, girls stuck in a trance  
Taking the L, I ain't a chance, nah  
Life wasn't no walk in the park  
You ain't the type to survive any war  
Palms trees and places where nothing is calm  
Touch down in Cuba, I'm puffing cigars  
Uh, on blocks I've seen it all  
Manage my own way and pass it in cars  
Old time's sake might just pull up

Just to hit one with my dargs

Uh

They wouldn't know me if it weren't Not3s  
But it's blessed 'cause I smoke keys  
Another one came with their stories  
Another one came with their worries  
Remember days I was so weak  
And I couldn't hear from them for the whole week  
Another one came with their stories  
Another one came with their worries

Party up  
Party up, up  
Party up, yeah  
Party up  
See the mood change when they see you run it up  
Watch 'em act strange when they see your money up  
Party up  
Party up, up  
Party up, yeah  
Party up  
See the mood change when they see you run it up  
Watch 'em act strange when they see your money go up

Party up  
Party up, up  
Party up, yeah  
Party up  
See the mood change when they see you run it up  
Watch 'em act strange when they see your money up  
Party up  
Party up  
Party up, yeah  
Party up  
See the mood change when they see you run it up  
Watch 'em act strange when they see your money up  
Party up
