

Stressing Me

Not3s

It's another, it's another one
It's another, it's another one
It's another, it's another one
Remedy

Flex on you, you can't flex on me
Got gyals makin' rice while I'm chasin' peas
Take your cake and your recipe 'cause I need to make my dough
Don't ever come and phone my phone, stop textin' me
No WhatsApp don't message me
You got me pissed off mentally
So me bein' on this beat be my remedy

Obsessed with me
I'll just phone up Stephanie
If you keep on stressin' me
'Cause it's plenty of fishes up in the sea

Obsessed with me
I'll just phone up Stephanie
If you keep on stressin' me
'Cause it's plenty of fishes up in the sea

Stephanie, come around
Body lookin' good you can hold rounds
Forget my old ting, yeah she old now
I really need you to go down
Come around, body lookin' thicker when you go down
I'm really tryna be into your soul now
So would let me in? And take it slow mama
Show mama, everything you wanna show mama
'Cause your body's gonna take the stress away like oh, mama
Look at you go mama
You bad and you know mama
Bounce on you like a lion I can't be tamed
Ways on me you gwan like I stole your heart
Good soul but the kids had the coldest parts
Them hoes did me dirty before now I'm really tryna slide for your ocean like
Noah's Ark
No emotion when I do it
But I have your eyes rollin' when I do it, yeah
I won't ever try to fuck you over
You too obsessed I'ma bring Steph over

Ooh why you so obsessed with me?
I'll just phone up Stephanie
If you keep on stressin' me
'Cause it's plenty of fishes up in the sea

Obsessed with me
I'll just phone up Stephanie
If you keep on stressin' me
'Cause it's plenty of fishes up in the sea

She's obsessed and she knows
Gets vexed when she sees any text on my phone
Tell her leave it alone

'Cause you ain't only my own no bae
She's obsessed and she knows
Gets vexed when she sees any text on my phone
Tell her leave it alone
'Cause you ain't only my own no bae
I heard from one of my guys
That you just fucked with every guys
So how you be so down for me?
Don't you try, don't you try hide
I can see through your disguise and your lies
Like ooh why you so o-
