

Unexplainable

Not3s

Can't explain how it is, how we are
Feels weird pulling my car out my garage
Things happen fast when this life's been a blast
I ain't ever grieved properly for my people that have passed
I feel they understand cause they're spirits never far and the family know
I've got them from the bottom of my heart brothers
That I'll end with they been with me from the start
Be on task gotta make this last

How we live in a way that can't be explained
I swear that this here's unexplainable
Where we were to where we are
I'd say was a great escape
I swear this here's unexplainable

Unexplainable
Unexplainable
I can't explain at all
Unexplainable
Unexplainable
Unexplainable
I can't explain at all
I can't explain

It's sick
How the script
Can flip so frantic in this life we live
You've got to live
Cause no moments missed
Live to the fullest 'til you can't again

How we live in a way that can't be explained
I swear that this here's unexplainable
Where we were to where we are
I'd say was a great escape
I swear this here's unexplainable

Unexplainable
