```
How we do (Again, again, again)
How we do (I dare you try again)
How we do (Again, again, again)
How we do (I dare you try again, I dare you try again)
Only my God knows the reason we're all here
Spendin' time on my now
And you deserve exactly what you came for
Put your time in if you claim you're the best
Uh, y eah, yeah
Correct, we step
Spends the receipts, then check
Twenty-four-karat gold on my neck, uh
They vexed, while the gyaldem impressed, mans
Can never be loose with the flex, yeah
If you claim
They can't do it how we do
Do it how we do
They can't do it how we do
How we do, do it how we do
They can't do it
I dare you try, again, again
I dare you try, again, again
Get lit at any function we landin'
Birthday landed, night on embankment
Whole squad calls in the traffic
Gyaldem pulled up in a
But ain't tryna leave her friends
'Cause they come as a package, it's time
Told my friend put a whips out G
You could come if you fly where your cap is
Money makin', multiply, I'll get the money doin' multiple backflips
Everything moves when she's movin' her waist, I dress best, be realistic
Them man tryna worry 'bout how we do
And how we do, that's a bitch boy move, move
Go make move
I dare you try again
They can't do it how we do
Do it how we do
They can't do it how we do
How we do, do it how we do
They can't do it how we do
Do it how we do
They can't do it how we do
How we do, do it how we do
They can't do it
I dare you try, again, again
I dare you try, again, again, again
```
