

about you

NOTD

Missed a call and I freaked when I saw your name
Suddenly unannounced, lighting up my screen
I was unaware you could take me there
Seven months on my own, still I'm unprepared
I was good, I was fine, thought I made it out
Found some new things to do to distract myself
I was unaware you could take me here now, now, now

I don't wanna think about you no more, ooh
I don't wanna think about you, no, but I do
I keep trying to move on
Know that I can't move on
When my head is glued on
Me and you
I don't wanna think about

Staying out way too late down on Navy Street
Where you laughed when I wiped lipstick off your teeth
And we wrote our names
By the bathroom sink
Never thought we were temporary

I don't wanna think about you no more, ooh
I don't wanna think about you, no, but I do
I keep trying to move on
Know that I can't move on
When my head is glued on
Me and you
I don't wanna think about you, you, you
I don't wanna think about you, you, you

I don't wanna think about you, no, but I do
(I keep trying to move on
Know that I can't move on
When my head is glued on
Me and you)

I don't wanna think about you no more, ooh
I don't wanna think about you, no, but I do
I keep trying to move on
Know that I can't move on
When my head is glued on
Me and you

I don't wanna think about you no more, ooh
I don't wanna think about you, no, but I do
I keep trying to move on
Know that I can't move on
When my head is glued on
Me and you
I don't wanna think about you
