

Another Life

NOTD

I know exactly what I'm losin'
It's not his fault that I have lost my mind
I know exactly who I'm choosin'
The chemicals got me in overdrive

Best dress on, lipstick, pour champagne
Cut my hair, say, "Hey, what's your name?
I've seen you before, I like your face"

I want you in another life
I won't wait another night
Feel too much to keep it all inside
Ah, ah
I want you in another life
I just said my last goodbye
You should know that you're already mine
Ah, ah

Ah, ah
Ah, ah

You know exactly what I'm doin'
I guess it's time for me to roll the dice
My head tells me to run, my heart beats like a drum
'Cause you're the only one that I want

Best dress on, lipstick, pour champagne
Cut my hair, say, "Hey, what's your name?
I've seen you before, I like your face"

I want you in another life
I won't wait another night
Feel too much to keep it all inside
Ah, ah
I want you in another life
I just said my last goodbye
You should know that you're already mine
Ah, ah

Ah, ah
Ah, ah
